- languages (Hindi, English)

CERTIFICATES

NOV 2022 | Data processing specilist
DEC 2022 | Python with data science
OCT 2022 | Web Development
OCT 2023 | AMCAT

Profile

I'm Ashish Verma, a passionate software engineer with a drive for continuous learning and growth. I graduated in [2023] from [Babu Banarasi Das Engineering College Lucknow] with a degree in [B.TECH]. As a recent graduate, I am on an exciting journey to evolve into a versatile Full Stack Developer.

ACHIVEMENTS

DATA PROCESSING SPECIALIST

1. Obtaining a certificate as an Amcat Data Processing Specialist validates your proficiency in data processing, showcasing your skills in handling and analyzing data effectively.
2. The certification process involves successfully completing the relevant Amcat assessments, which assess your knowledge and practical abilities in data processing tasks, ensuring you meet industry standards.

SUMMER INTERSHIP [DIGIPODIUM LUCKNOW]

1. Completing my summer internship course in Python with data science has equipped me with advanced programming skills and a deep understanding of data science techniques, enhancing my capabilities in the field.
2. Throughout the internship, I successfully executed a project on campus recruitment analysis, demonstrating my ability to apply Python and data science methodologies to extract valuable insights from complex datasets.

IT TRANING [DUCAT NOIDA]

Engaged in comprehensive Java Full Stack Development training at [IT Training Institute], acquiring proficiency in front-end and back-end technologies. Mastered essential skills encompassing Java, Spring Boot, HTML, CSS, and JavaScript, demonstrating a solid foundation for building end-to-end web applications. This training has equipped me with a versatile skill set, enabling me to contribute effectively to dynamic software development projects.
